Discover what nursing is really like.

Like many people, high school students often have limited experiences with the actual role of a professional nurse. Through Discover TCU Nursing you will have the opportunity to participate in activities that professional registered nurses do every day. You'll experience the importance of teamwork and excellent communication in promoting health, explore thinking and hands-on skills nurses need to care for patients, and use those skills in simulated health care situations. This TCU Nursing camp is designed to give high school students a first-hand look at the nursing profession, its rewards, challenges and opportunities. The participating teachers and mentors are TCU Nursing faculty members and community leaders.

- Learn from TCU Nursing faculty and graduates
- Practice effective communication skills
- Explore nursing skills such as caring for wounds, assessing patients, taking vital signs, and using medical terminology
- Experience how nurses use knowledge of anatomy and physiology, microbiology, pharmacology, math, and systems to care for patients
- Interact with human patient simulators
- Complete an American Heart Association CPR course
- Gain insight into the TCU Baccalaureate Nursing Program

Find the application and recommendation forms at https://harriscollege.tcu.edu/news/tcu-nursing-camp-2019/
